The game is played in 13 rounds. In each round, players will roll the dice up to three times. After each roll, players can choose to keep some dice and

re-roll the others.

Once players have rolled their dice three times, they must fill in one of the categories on the score sheet. The categories are as follows:

- **Aces:** The sum of all the aces rolled
- **Twos:** The sum of all the twos rolled
- **Threes:** The sum of all the threes rolled
- **Fours:** The sum of all the fours rolled
- **Fives:** The sum of all the fives rolled
- **Sixes:** The sum of all the sixes rolled
- **Three of a Kind:** The sum of all the dice if three or more dice show the same number
- **Four of a Kind:** The sum of all the dice if four or more dice show the same number
- **Full House:** 25 points if you roll three of one number and two of another number
- **Small Straight:** 30 points if you roll four numbers in a row
- **Large Straight:** 40 points if you roll five numbers in a row
- **Yahtzee:** 50 points if you roll all five dice the same number
- **Chance:** The sum of all the dice rolled

## Scoring

The score for each category is determined by the dice rolled. For example, if you roll three aces, your score for the Aces category is 3. If you roll a full house, your score for the Full House category is 25.

Once all 13 rounds have been played, the player with the highest total score wins the game.
