

Navigating the New Normal: COVID-19 Procedures for Film Production

The COVID-19 pandemic has significantly impacted every aspect of our lives, including the film industry. As productions gradually resume, it is imperative to implement rigorous safety procedures to protect cast, crew, and the public. This article provides a comprehensive guide to COVID-19 safety protocols for film production, ensuring a safe and responsible return to filming.

Pre-Production Planning

- **Risk Assessments:** Conduct thorough risk assessments to identify potential hazards and develop mitigation strategies.
- **Collaboration with Health Professionals:** Consult with infectious disease experts and occupational health specialists to create a

comprehensive health and safety plan.

- **Training and Education:** Educate all cast and crew on COVID-19 safety procedures and their personal responsibilities.

On-Set Procedures

Social Distancing and Hygiene:

- Maintain appropriate social distancing of at least 6 feet whenever possible.
- Provide hand sanitizer stations throughout the set and encourage frequent handwashing.
- Require the use of face masks when social distancing cannot be maintained.

Personal Protective Equipment (PPE):

- Provide masks, gloves, and eye protection for all cast and crew who cannot maintain social distancing.
- Use personal protective equipment (PPE) correctly and dispose of it properly after each use.
- Establish designated areas for donning and doffing PPE.

Sanitation and Disinfection:

- Regularly disinfect high-touch surfaces, such as equipment, props, and vehicles.

- Use antiviral sprays and wipes to clean and disinfect common areas and equipment.
- Provide dedicated cleaning crews to maintain a clean and sanitized environment.

Health Monitoring and Testing:

- Conduct daily health screenings for cast and crew, including temperature checks and symptom monitoring.
- Require regular COVID-19 testing for cast and crew members who are in close contact with one another.
- Isolate and remove anyone exhibiting COVID-19 symptoms or testing positive for the virus.

Post-Production Considerations

Editing and Mixing:

- Maintain social distancing in editing and mixing facilities.
- Use virtual collaboration tools for remote work whenever possible.
- Provide hand sanitizer stations and require masks when in close contact.

Distribution and Marketing:

- Explore alternative distribution methods, such as online streaming and drive-in theaters, to minimize public contact.

- Develop creative marketing campaigns that emphasize the safety measures taken during production.
- Inform audiences about the COVID-19 procedures implemented on set.

While the COVID-19 pandemic has presented unprecedented challenges for the film industry, it is crucial to adapt and prioritize the health and safety of cast, crew, and the public. By implementing these comprehensive COVID-19 safety protocols, film productions can navigate the "new normal" and continue to create and share compelling stories while protecting everyone involved. As the situation evolves, it is essential to stay informed and adapt procedures as necessary to ensure the well-being and safety of all.
