

The Deep State and the Unitary Executive: A Critical Examination

The Deep State and the Unitary Executive is a timely and important book that examines the growing power of the executive branch and the erosion of checks and balances. Author Mike Lofgren, a former congressional staffer, argues that the Deep State is a real and dangerous threat to American democracy.

Lofgren defines the Deep State as "a network of unelected officials who wield immense power over the government." He argues that the Deep State is not a monolithic entity, but rather a loose network of individuals and institutions who share a common goal of maintaining their power and influence.

Lofgren identifies several factors that have contributed to the growth of the Deep State, including:

- The increasing complexity of government
- The rise of the national security state
- The decline of Congress
- The growth of the administrative state

Lofgren argues that the Deep State poses a serious threat to American democracy because it undermines the rule of law, erodes trust in government, and makes it difficult for citizens to hold their elected officials accountable.

The Deep State and the Unitary Executive is a well-researched and thought-provoking book that provides a valuable contribution to the debate about the future of American democracy.

About the Author

Mike Lofgren is a former congressional staffer who served on the House Budget Committee and the House International Relations Committee. He is the author of several books, including *The Party Is Over: How Republicans Went Crazy, Democrats Became Useless, and the Middle Class Got Shafted*.

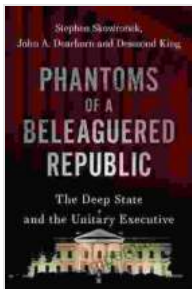

Reviews

"*The Deep State and the Unitary Executive* is a must-read for anyone who cares about the future of American democracy." - *The Washington Post*

"Lofgren's book is a timely and important warning about the growing power of the executive branch." - *The New York Times*

"The Deep State and the Unitary Executive is a well-written and thought-provoking book that deserves to be widely read." - *The Wall Street Journal*
